

Y9 GCSE Study Information Evening 14th January 2026

Y9 GCSE Study: Key Staff Members

Here are some of the key figures involved in the Y9 GCSE Study process

Ms Grewal
Co-Head

Mr Rippin
SENDCO

Ms Siddell
Co-Head

Ms Czauderna
Y9 Inclusion Lead

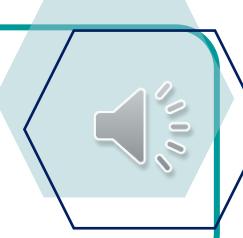

Mrs Morris
Assistant Headteacher
Curriculum

Ms Milnes
Y9 Inclusion Lead

Curriculum Reform 2025

- November 2025 - outcomes to a major review of the National Curriculum were announced. The first in over a decade which responded to the Francis Review.
- Some elements are still being consulted on and will be finalised by the Government
- Reforms to GCSEs and support for all students to study Triple Science to aim to elevate subject breadth and quality.
- The EBacc will no longer be used as an attainment measure.
- The EBACC is a qualification comprising GCSEs in English Language, English Literature, Mathematics, Science, History or Geography and a Modern Foreign Language. This is a set of subjects, when studied at GCSE that keeps young people's options open for further study and future careers, particularly if a student is keen to attend a "Red Brick" University.
- A study by the Institute of Education shows that studying subjects included in the EBacc provides students with greater opportunities in further education and increases the likelihood that a student will remain in full-time education. Therefore, whilst less emphasis will be placed on the EBacc as an attainment measure, it is still a valued suite of subjects to study to ensure depth and breadth of the curriculum.

Y9 GCSE Study: Frequently Asked Questions

- **Is RE a compulsory part of the curriculum?**

- Yes, GCSE RE is part of the core curriculum at Tapton. Your child has already started their study towards their GCSE in RE in Y9 (2 hours a week). RE is taught for an hour a week in Y10 and Y11.

- **Can my child do a GCSE in their home language?**

- Yes - GCSEs are available in Arabic, Turkish, Urdu, Persian, Greek, Modern Hebrew and many more. We are unable to offer lessons in these languages but can act as a host centre for examination entries in Y11.

- **Does my child have to continue studying a language?**

- Our expectation is that all students at Tapton will study the core curriculum - English, Maths, Science, RE, Core PE and Personal Development as well as at least one EBACC subject (History/Geography/Language). Many students will choose to study the full EBACC comprising the Core Curriculum alongside a humanity **and** a language, as well as one additional subject.

- **What happens if my child does not enjoy the subject they have chosen?**

- We may be able to change your child's subject choice in September; however, we will have created the groupings and timetables around original decisions. This means that there may not be spaces available in the subject they wish to move into. This is why we aim to provide as much detailed information now to support your child in making the right decision. The deadline to make subject changes is **18th September 2026**.
